NO SLAVE BENEATH THE FLAG.

TO THE HON HENRY WILSON, U. S. Senator from Massachusetts, to whose distinguished ability, integrity and firmness for the right in this and many other instances, humanity and the future are so much indebted, these lines are, by his especial permission, most respectfully dedicated.

I.

No slave beneath that starry flag,
The emblem of the free!
No fettered hand shall wield the brand
That smites for Liberty!
No tramp of servile armies
Shall shame Columbia's shore,
For he who fights for Freedom's rights
Is free forevermore!

II.

No slaves beneath those glorious folds
That o'er our fathers flew,
When every breath was dark with death,
But every heart was true!
No serfs of earth's old empires
Knelt 'neath its shadow then:
And they who now beneath it bow
Forevermore are men!

III.

Go tell the ashes of the braves
Who at Port Hudson fell:
Go tell the dust whose holy trust
Stern Wagner guards so well:
Go breathe it softly—slowly—
Whenever the patriot slave
For right has bled, and tell the dead
He fills A FREEMAN'S GRAVE!

IV.

Go tell Kentucky's bondsmen true,
That he who fights is free!
And let the tale fill every gale
That floats o'er Tennessee!
Let all our mighty rivers
The story southward pour,
And every wave tell every slave
To be a slave no more!

V.

Go tell the brave of every land,
Where e'er that flag has flown—
The tyrant's fear, the patriot's cheer,
Through every clime and zone—
That now no more forever
Its stripes are Slavery scars:
No tear-drops stain its azure plain,
Nor dim its golden stars!

VI.

No slave beneath that grand old flag!
Forever let it fly!
With lightning rolled in every fold,
And flashing victory!
Go on's blessing breathe around it;
And when all strife is done,
May Freedom's light, that knows no night
Make every star a sun!

NASBY.

The Negro being Found not Available, Mr. Nasby and his Followers Decide to go Back on Him—A Meeting, the Effect of which was Spoiled by Pollock, the Illinois Store-Keeper, and Joseph Bigler, Late C. S. A.

POST OFFIS, CONFEDRIT X ROADS, (Wich is in the State of Ky., July 28, 1867.

The speculashen in wool, into wich the Dimocrisy uv the South embarkt some months ago, hez, I regret to say, resulted disastrously. The nigger ain't fitted for co-operashen with the Dimocrisy. Instid uv hangin on to us like the ivy onto the oak, he diskivered that, in the South at least, he was really the oak and we the ivy; instid uv lookin up to us, he contracted a disagreeable habit uv lookin down onto us. There wuz other reasons why he coodent be made available for our uses, and therefore it was decided to go back onto the Afrikin, and to agin attempt his reduckshen to as near his normal specr ez the abnormal condishn uv the times wood admit. The direcers uv the college met and changed the name uv the Institootshn back to the "Southern Military and Classikle Institoot," and the Corners wuz itself agin.

Deekin Pogram lookt ez tho the ten years hed bin lifted off him. "How pleasant 'tis," sed he, "to walk erect agin in front uv a nigger, and to pass em ez tho they wuz niggers!—Oh ef I cood only wallop one wunst more methinks I cood die happy!"

We hed a meetin last nite to consider this nigger question, which wood hev resulted in great good and hed a powerful influocence toward strengthening the hands uv our brethren in the North, who are fightin the heresy uv nigger suffrage, hed it not bin for that irritashen, Pollock, and that pest, Joe Bigler. I hed made my regler speech on the nigger and with much effect. I hed quoted from somebody's quotashen from Agassiz, wich demonstrated the radicle difference there is atween the Afrikin and the proud Caucashun; arguin from the length uv his heel and arm, the thickness of his skull and so forth, that the nigger wuz totally unfit to exercise the rites uv free men. I wuz applauded vociferously and by none more than Pollock and Joe Bigler. Ez I took my seat and wuz a wipin the perspirashen from my classikle brow, feelin that I hed settled that question, Pollock riz and desired to say a few words and make a suggestion. Sed he:

"I hev listened with interest to the elokent speaker and am happy to say I hev learned fax wich is new to me. Ef I hev ever doubted the inferiority of the nigger them doubts are removed, pervidin allus, that if the statements of the speeker is troo, uv wich I hev no doubt, ez the character uv the speeker is a suffishent guarantee for the trooth uv wichever he sez."

I bowed stately like, with the air uv one to whom sich compliments wuz a every day affair, wich they ain't by no means, on the contrary quite the reverse.

"But I want it demonstrated to the satisfackshen uv the most obtoose—I want rite here a measurement uv the average Afrikin and the average white man, that all the world may know the difference. I move that it be did."

I acceded. "Let it be done," sed I, "that the vexed question may be settled for ever."

Several niggers were askt to submit to the measurement, but all refused. Finally Joe Bigler sed he saw Napoleon Johnson, a nigger wich wunst belonged to Deekin Pogram, in the audience. "Napoleon," sed he, will yoo contribitt yoorself to the great science uv ethnology? Ain't yoo willin to let us yoose yoo awhile to demonstrate the grate and growin trooth that yoor grandfather wuz a monkey? Step up, Napoleon."

Napoleon, nothin dasht, stept up, and Pollock, Bascom, Bigler and I measured him with the followin result:

Height	5 feet 8 inches.
Weight	150 lbs. averdupoise.
Length uv foot	12 inches.
Breadth uv foot	5 "
Length uv hand	8½ "
Breadth uv hand	4 "
Length uv forearm	11 "
Len. bone from ankle to knee	6 "
Projeckshun of heel	5 "
Capassity uv skull, wich bein the top or cap uv the vertebral column, so to speek, is according to Hipocrates, a trooly scientific Greek, and Hon. Wm. Mungen, uv Ohio, a very important bone for pretty much all uv the races.	66 cubic inches.

"Now," sed Pollock, "let us examine in the same way a average specimen uv the Caucashen race, ez he is found in this delectable spot. Will Issaker Gavitt be good enuff to step forward? I perpose to demonstrate the sooperiority uv the Caucashen with a two-foot rool. Figgers wont lie. Step up, Issaker."

And Issaker stept up, and wuz measured with the follerin result:

Height	5 feet 8 inches.
Weight	150 lbs.
Length uv hand	7½ inches.
Breadth "	3½ "
Length uv foot	11 "
Breadth "	4½ "
Projeckshen uv heel	1½ "
Length uv forearm	10 "
Length uv bone from ankle to knee	15 "
Capassity of skull	97 cubic inches.

Pollock wuz delited! "Here," sed he, "it is in a nut shell. Issaker hez a shorter hand, a more narrer hand, a shorter and narrerer foot, and his heel projecks less than the nigger's by 2½ inches! Good Lord, how I hev bin desceived! What errors I hev bin nussin! How kin a human bein hev intelleck whose heel projecks four inches? How rejoict am I that I am at last set rite on these important pints!"

I smiled beninantly onto him.

Bigler riz. "I too," sed he, "am satisfied that the nigger is not what we, who wuz dispozed to consider him fit to exercise rites, supposed him to be. I held firm when the measurement uv his hands and arms wuz being made, but the heel staggered me. Its clear that no one kin hev intelleck whose leg isn't set in his foot better than that. I shall persoo this investigashen. Hevin now a startin pint—a heal, ez I may say, to stand on—I shel go on to prove the inferiority uv the nigger. With that heel for fulcrum, I shel, with the lever of trooth, proceed to upset the fabric uv nigger ekality and carry confooshen into Boston. I shel assoom that Napoleon is a average specimen uv the lower or unintellectool African type. Is it so?"

"It is! it is!" yelled we all, delited at the happy turn the thing wuz takin.

"I shel also assoom that Issaker Gavitt is a avrage uv the higher or intellectooal Caucashen type. Is it so?"

"Certinly! Certinly!"

"Very well. Now quake Massachoosetts. Napoleon, kin yoo read?"

I saw the trap into which we had fallen, and risin hastily protestid that the examinashen hed bin carried far enuff, and so did Deekin Pogram, but Bigler swore he wuz agoin to kiver Massachoosetts with shame, and I sot down paralyzed.

"Kin yoo read, Napoleon?"

"Yes sah!"

"Read this, then," sed Bigler, handin him a noospaper.

The nigger read it ez peert ez a Noo England skool marm, wich well he mite, ez he learned it from one uv em.

"Kin yoo write?"

"Certinly," and takin a pencil, he writ half uv the Declashen uv Independence.

"Set down, Napoleon. It's a devilish pity yoor heels is so long; otherwise yood be credited with hevin intelleck. Now Issaker, my bold Caucashen, kin yoo read?"

"I protest!" shreeked I, in agony. "Issaker, don't answer the skoffer at ethnology!"

But Issaker, ez white ez a sheet, and tremblin under the eye uv Bigler, who knowd him from infancy, stuttered out, "No!"

"Kin you rite, my gay descendant uv the sooperior race?"

And, still under the influocence uv Bigler's eye, he answered "No!"

"Kin you cipher?"

"What in the thunder's the yoose uv cipherin when the old man alluz kep a nigger to do his figgerin?"

"Set down, Issaker. We're done with you. There's an error somewher. The nigger's capassity uv skull is less by several cubic inches, but he seems to hev used wat he hez lively. But it's all rite, Parson. Issaker shel vote and the nigger shant. Readin and writin never wuz a qualification for votin down here, any way. Possibly the seat uv the intelleck is in the heel instead uv the brain, wich accounts for the nigger's hevin the most uv it."

And Pollock and Bigler and the niggers present left the meetin house, laffin uproarously and throwin all sorts uv adoos back to us.

I doubt whether the result uv the investigashen will help our friends North. The fact is, it wuz overdone. It was carried to fur. There is a pint at which facts ought to stop—Dimekratic facts in partikelar. In this instance the investigashen shood never hev bin carried beyond the heel. Hed it stopt there, we wood hev hed em. But carryin it to the Radical pint Bigler and Pollock took it, the foundashen we built wuz upset and we are all at sea again. Wood, oh! wood that we wuz red uv these jeerin fanatics.

OUTRAGE BY INDIANS.

Train Thrown from the Track and Burned—Train Men Slaughtered and Thrown Into the Flames.

CHICAGO, August 7.—A special from Omaha to-day, says a freight train on the Union Pacific Railroad was thrown from the track last night at Plum Creek Station by Indians. The engineer, fireman and brakeman were killed. The merchandize was burned. It is also reported that three or four men at the Station were killed. This outrage is supposed to have been committed by "Spotted Tail's" band, who have been feeding at the public expense for some time.

The steamer Silver Lake, arrived from Fort Benton, was fired into by Indians forty miles above Fort Rice, and one of the crew wounded.

Another dispatch says the Indians attacked the freight train near Plum Creek, last night, and threw it from the track by piling ties upon the road, killed and scalped seven train men, set fire to the train, destroying it entirely, and threw the slaughtered bodies into the flames.

An Item which every Man should Read.

We have, probably all of us, met with instances in which a word, heedlessly spoken against the reputation of a female, has been magnified by malicious minds until the cloud has been dark enough to overshadow the whole existence. To those who are accustomed, not necessarily from bad motives, but from thoughtlessness, to speak lightly of ladies, we recommend these "hints" as worthy of consideration:

Never use a lady's name in an improper place, at an improper time, or in a mixed company. Never make assertions about her that you think untrue, or allusions that you feel she herself would blush to hear. When you meet with men who do not scruple to make use of a woman's name in a reckless and unprincipled manner, shun them, for they are the very worst members of the community—men lost to every sense of honor, every feeling of humanity.

Many a good and worthy woman's character has been forever ruined and her heart broken by a lie manufactured by some villian, and repeated where it should not have been, and in the presence of those whose little judgment could not deter them from circulating the foul and bragging report. A slander is soon propagated, and the smallest thing derogatory to a woman's character will fly on the wings of the wind, and magnify as it circulates, until its monstrous weight crushes the poor unconscious victim. Respect the name of woman, for your mother and sisters are women, and as you would have their fair name untarnished, and their lives unembittered by the slanderer's bitter tongue, heed the ill that your own words may bring upon the mother, the sister, or the wife of some fellow-creature.

Apples For Cows.

Ripe and mellow apples fed carefully to cows, will produce an extra secretion of milk. Sweet apples are doubtless preferable for this purpose to sour; yet the latter, when not too acid, are a valuable feed, and should be given in small quantities as long as they can be preserved sound and free from rot. To apply the produce of the orchard in this way is much more economical than to make it into cider, which, as a beverage to be drunk commonly, either at meals or other times, often produces very unpleasant consequences, but rarely, if ever, does much good.—*Cin. LATE KENTUCKY ELECTION.

Who and What Triumphed.

The Democratic papers throughout the North are rejoicing at the result of the recent Kentucky election. This is perfectly proper and anything else would be unnatural. The reader will readily understand this when he has

[redacted]

is its exact meaning.

We imagine that we will not be suspected of rancor when we make the following assertions. They are so widely known, that it would be "painting the lily" to accumulate proofs:

1st. John L. Helm, Governor elect, was, during the entire war of rebellion, an undisguised sympathizer with the Confederates. He was more than once arrested by Sherman and Rousseau; and more than once engaged in open or covert schemes, which looked solely to the benefit of the Rebel Confederacy. He has not during all the long and weary years of war breathed one patriotic aspiration for the national triumph.

2d. John W. Stevenson, Lieutenant Governor elect, has uniformly adhered to the Calhoun school of politics. He has been a true beliver in the doctrines of States' Rights, in their broadest and most dangerous interpretation, and an undeviating adherent of John C. Breckinridge. His fealty to the lost cause is beyond question.

3d. John Rodman, Attorney General elect, raised a regiment for service in the Confederate army and left Kentucky with Bragg, in 1862. We have not at hand the details of his military service; but it will not be denied that his heart and soul were in the Confederate cause.

4th. D. Howard Smith, Auditor of State elect, was Colonel of a regiment of Confederate cavalry, and served in the rebel army during the entire war.

5th. James W. Tate, of Frankfort, Treasurer elect, was during the entire war a partisan of the rebellion. The fact is known to every citizen of this place and needs no elaboration.

6th. Z. N. Smith, Superintendent of Public Instruction elect, has always and notoriously held kindly and hopeful views for the Southern Confederacy.

7th. James A. Dawson, Register of the State Land Office, elect, was for a brief space an acting Lieutenant in the Union army. His entire term of Union military duty did not aggregate the number of days employed in the late canvass. Mr. Dawson has been charged with having expressed regret that he ever wore the blue. We have never heard him use the expression—in fact, he has denied it; but his most active energies have, for two years, been used in league with those whom Mr. Dawson knew to be unblushing traitors. We think we might safely state that Mr. Dawson would have preferred seeing the South succeed, to witnessing the incidental overthrow of slavery, in the triumph of the Nation.

Such is a list of candidates which a majority of the people of Kentucky have, at a free poll, elevated to office. The people of the nation are authorized to judge of the populace by their representative men. It is a fair inference that these gentlemen, strung on the cord of a common sympathy for the rebellion, are to be considered the rosary of the Democratic church in Kentucky. Such is our honest belief. Such will be the judgment of all calm minded men.

What, then, is the practical inference? It is that the "lost cause" is found again in Kentucky. That the majority that flinched from shot and shell, are now bold in mere treasonable indorsement. The hands that feared to assault the armed Republic, are swift (the danger of life and money past) to become accessories after the fact. The pith of the moral is that Kentucky would to-morrow hail with applause, (not by any means with material aid,) a counter-revolution, which would eject Congress from its power and transfer the Federal rule to John C. Breckinridge, Jesse D. Bright, and Isham G. Harris.

The election of Monday last is a demonstration. Practically, it indorses rebellion. Politically, it insures a Republican triumph in Ohio, Pennsylvania and New York, by greatly increased majorities.

A BOLD WOMAN.

Outrageous Attempt at Burglary by Four Men—A Woman Shoots One and Splits the Skull of Another.

The Stanford, (Canada,) *Herald*, says: "A statling rumor prevailed in Stratford to the effect that three men had been killed by a woman in the township of Elma. On making inquiries, we learned from Chief Constable Harrison the following facts, as given by Messrs. Moore and Dood, constables from Elma:"

"A woman named Gibson, living near Towbridge, had lately received a sum of money from her husband, who resides in the States. This, of course, became noised abroad among the neighbors. On Saturday evening last four men entered the house in her absence, but not being able to find anything. In the evening the same parties came again; this time Mrs. Gibson was at home. On their demanding admission she refused, as the children had told her of the previous occurrence.

They then attempted to force their way in. Mrs. Gibson warned them to desist, at the same time threatening to shoot; but they still persisted, when she fired the gun and shot the foremost in the face; the others withdrew for a while with their companion, but shortly returned to the house, and burst the window open. The brave woman seized an ax and buried it in the skull of the man who was attempting to climb through the window. The other two immediately decamped, taking their wounded companions with them.

The alarm was not given till morning, when the neighbors turned out and followed the tracks, which were easily distinguished by the pools of blood which lay along the road; but it was found the parties had got into a conveyance and drove off. Up to going to press we have not learned that any were captured. It is almost certain that one of the ruffians was killed, and the one that was shot must have been severely wounded, as the woman saw them carry him away before returning to their second attack.

The Wages of Women.

The custom from time immemorial seems to have been to pay a woman less than a man for doing the same work. Doubtless this relic of other ages arose from the fact that work assigned to women in other times was of a less skillful character than that of men, because mechanical pursuits were not so varied, and, with some few exceptions, are unfit avocations, on account of want of strength, for the weaker sex. Sedentary employments, lighter and better suited to their powers, are fewer and probably not so profitable, and in consequence we have had foisted upon our better civilization, and more varied demands for labor, a system evidently unjust and partial, because the standards of compensation in labor should be skill and industry; partial, because it makes a distinction for which there is no foundation but that of false custom. It is time we were standing out of our own light in this matter, else the time may come, even in prosperous America, when subsistence, not competence, will be the only object attainable by men or women; because gradually women will be employed at the low rate of compensation, and men will be obliged to starve or work for the same remuneration. Another light in which we may look at this matter, and an important one, is its bad tendencies. Morality demands that we shall not, by our abominable stickling for the customs of the past, force women to resort to lives of degradation, as we are doing now, in order to escape from the clutches of starvation. Justice, interest and morality demand that the skilled labor of women should receive the same reward as that of men.

Diseases Produced by Sleeping Together.

During the night there is considerable exhalation from our bodies, and at the same time we absorb a large quantity of the vapors of the surrounding air. Two healthy young children sleeping together will give and recieve healthy exhalations; but an old, weak person near a child will, in exchange for health, only return weakness. A sick mother near her daughter communicates sickly emanations to her; if the mother has a cough of long duration, the daughter will at some time also cough and suffer by it; if the mother has plumonary consumption, it will be ultimately communicated to her child. It is known that the bed of a consumptive is a powerful and sure source of contagion, as well for men as for women, and the more so for young persons. Parents and friends ought to oppose as much as is in their power the sleeping together of old and young persons, of the sick and of the healthy. Another reason ought to forbid every mother or nurse keeping small children with them in bed Notwithstanding the advice of prudence, no year passes that we do not hear of a new involuntary infanticide. A body full of life, health and vigor in the evening is found dead the next morning, suffocated by its parents or nurse.

DANIEL WEBSTER was right when he remarked of the press: "Small is the sum required to patronize a newspaper; amply rewarded its patron, I care not how humble and unpretending the gazette he takes. It is next to impossible to fill a printed sheet without putting into it something that is worth the subscription price."

Keep Your Best Stock.

Many farmers are in the habit of selling their best animals, as they will bring the highest price. A greater mistake cannot be made. A difference of ten, or even twenty per cent., in the price of a single animal, is a small affair compared with the difference of a whole herd. By keeping the very best to propagate from, the whole may be made of equal excellence, and in the course of a few years numerous animals might be produced, having the excellent properties that now distinguish some few of the best.

POLITICAL AND MISCELLANY.

IT IS VERY CLEAR that all the great elements of the country are against Andrew Johnson. *First*, the people are against him, as is shown in the result of all the elections where impartial suffrage is the rule. *Second*, Congress is against him, as is known by the fact that that body has passed all its important measures over his veto. *Third*, the army is against him, as is seen by the fact that all the great heroes of the war, Grant, Sheridan, Thomas, Sherman, Sickles, Pope, and a galaxy of other brilliant names, all oppose his policy. Truly, the President has only for his supporters the rebels who fought to destroy the Government and the Democraticy who sympathized in the effort.

THE Chicago Postmaster was accidentally drowned a few days ago.

BALTIMORE and vicinity suffered greatly, last week, from excessive rain.

JUDGE ADVOCATE HOLT is to be relieved and transferred to other duties.

BISHOP KERFOOT of Pittsburgh, has announced his intention to attend the meeting of Episcopalian Bishops to be held in London in September.

A GOOD EXAMPLE.—The Prince of Wales, heir to the English throne has signed the *temperance pledge*. He was fast becoming hopelessly dissipated.

PREMATURE.—We see it announced in several copperhead papers in the District that Hon. Geo. V. Lawrence is a candidate for a *third term*. They are very solicitous to damage George's prospects.

TO THE POINT.—Among the scores of opinions of the vindictive act of Pres. Johnson in removing Sec. Stanton, that the Press of the Country have given utterance to, we have seen none more expressive and to the point than the following from the Mobile *Tribune*:

"The proper course is to send for a constable and have him taken to the station-house."

A TRIBUTE.

Whilst journeying on the coach a few days ago the subject of the fall election was broached by some one of the company, when a sedative Pittsburgher who had hitherto been silent, spoke out and said, "I have known Judge WILLIAMS intimately from childhood up, and *he is one of the best men God ever made!*"

BAD LOGIC.

In times past, the advocates and apologists of slavery stoutly contended that the more the question was agitated the firmer the chains were riveted and that it did the cause an absolute injury to discuss it. That theory has been exploded.

Anti-temperance men are now chopping the same kind of logic. They say, "the more temperance people strive to prevent intemperance, the more drunkenness there will be." Does any sane man believe such stuff? We hope that no one having the cause at heart will be deluded into relaxing his efforts thereby.

LETHEAN CHARITY.

When Major Andre of Revolutionary ignominy requested that he might be shot in lieu of being hung, he was entirely too modest to ask that his crime should be forgiven and forgotten. And yet history tells us that General Washington did not even grant what was contained in the petition.

The spies and rebels of the late war, not content that they have escaped the odium of the gallows, and have been exempted from the just retribution of the bullet, are clamorously petitioning that their treason shall be *forgotten* and their crimes *forgiven*. They say "It is unwise and ungenerous to keep alive disagreeable remembrances that foster strife and bitterness" and advise that all such appellations as "rebel," "traitor" and "copperhead" should be sunk in oblivion On this topic the Dayton (O.) *Journal* discourses as follows:

Doubtless Democracy would rejoice with exceeding joy, if some cunning conjurer could stifle the busy Democratic devil of conscience, that will not down at their pathetic bidding as long as the memory of Andersonville exists.

Can the patriotic citizen, whose darling boy suffered the horrors of the awful prison pens of the South, forget or forgive the abettors of his murder? Can the old man who offered his gallant children on the altar of his country, forget the contumely and insults that were heaped upon him and them, for rallying around the old "banner of beauty and glory" in its terrible hour of trouble? Can the veteran soldier now at home, scarred with wounds and honored by his grateful fellow patriots, forget that while the world stood gazing in unspeakable admiration at the amazing spectacle of a million of noble men, sacrificing happy homes and joyous lives on the battle field, for the old flag of Union, that an organized political party—Democrats, forsooth—assailed them behind their backs, insulted them and their friends, encouraged and aided the enemy whom they were meeting in the dread shock of battle, conspired to defeat and destroy them; derided their victories and exulted in their disasters? Never. These unparalleled perfidies cannot be forgotten. The record is imperishable, and the stigma of Copperhead will adhere to the Democratic party while history lives. As soon might we expect the memory of Judas Iscariot and his bloody silver to be forgotten. It would be a monstrous crime to forget such monstrous wrongs. The soldiers and patriots of this Republic cannot forget it, and the descendants of the Copperheads of the rebellion, will curse the memories of the fathers who left them an inheritance of shame. As there was no reproach after the Revolution so stinging to mortal pride as that of Tory, so in the future days of our regenerated Republic, there will be no stigma so galling as that of Copperhead. It is too soon to ask soldiers and citizen patriots to forget the stigmatic word that recalls all the awful memories of rebel prison pens, and all the secret and open perfidy of the Democratic party, while our soldiers were at the front, beating back the traitors who fought to restore the Democratic party to the power from which they had been hurled by the people.

GENERAL GRANT IN THE CABINET.

There are some who express surprise that President Johnson should have tendered the War Secretaryship, even *ad interim*, to General Grant, and still others who are disappointed that Grant should have accepted the position.

Grant, being a subordinate, is bound to obey the orders of the President. Had he refused to act as Secretary of War, Johnson might have regarded it as an act of insubordination, and made it an excuse for removing him from the office of General of the army. A state of things he anticipated, no doubt, for it is patent that he covets Grant's removal as much as he did Stanton's. There can be no doubt that it was a conspiracy against Grant that prompted the appointment. Johnson perceived the delemma: "Let Grant refuse and I will suspend him also. Let him accept and Stanton's friends will discard him."

Grant is too old a tactician to be outflanked by such transparent strategy as that.

Pennsylvania Democracy.

The address of the Democratic State Committee of Pennsylvania has one merit—it is short. But, brief as it is, it contains almost as many false assertions as sentences, and is a specimen of the very worst kind of political trickery. All the evils of the war—the loss of life, taxation, debt, high prices, paper currency—are enumerated as the direct work of the Republican party. Not a word is said of the Rebellion. We wonder what stuff a Democratic State Committee can be made of which gravely submits such an argument as this to the people.

It is true that we have a great debt, which bears as heavily upon Republicans as on Democrats; it is true that we are severely taxed to pay it; it is true that prices are high, that the currency is depreciated. All this we know and laments; but it is also true that we owe these evils, first, to the Rebels, and second, to the Democratic party, and wholly to their combined efforts to destroy the Union. It seems almost absurd to repeat these truths, for no ingenuity will ever conceal the great fact that the South rebelled, that the Democratic party sympathized with rebellion, and that the Republican party directed and maintained the War for the Union, and brought it to a triumphant end. It is notorious that the Rebels depended for aid upon the Democratic party; that the official action of that party was hailed in the South as an encouragement to persist in rebellion; that if it had not been for Democratic opposition the war would have ended years, perhaps, before it did, and that the debt and all our national evils would now be immeasurably less. There is nothing plainer than that the Democratic party—next to the Rebels—is responsible for the war and the misfortunes that have followed it. We repeat, therefore, that to compare the rate of taxation in 1860 with the rate in 1866, in proof that the Republican party has mismanaged the finances, without a word of reference to the war, is simply the meanest kind of political trickery, and certain to damage the cause it was meant to help. This address is insulting to the intelligence of the reader, and a slander of the North, for the Republican party and the North throughout the war were one and indivisible. It is all the loyal States that this Democratic Committee accuses of tyranny, and hatred, and corruption. —*Tribune.*

THE Democratic journals deal largely in metaphor. One of them calls Mr. Stanton "a low mule," and in the next sentence accuses him of "riding the high horse." A mule on horseback would be a remarkable sight.

A FIGHT NEAR FORT PHIL. KEARNEY.

Additional Particulars--The Contest Lasted Three Hours--Sixty Indians Killed--A Lieutenant and Five Men Killed.

ST. LOUIS, August 15.—Dispatches received at Omaha from Fort Feterman, state that contractor Porter arrived there on the 12th instant with intelligence that a fight occured near Fort Phil Kearney between the Indians and whites on August 2d. An extra train of thirty wagons, escorted by fifty citizens and fifty soldiers, under command of Major Powell and Lieutenant Jump, five miles from Fort Phil. Kearney, while gathering fuel, was attacked by a large band of Indians, supposed to be two hundred and fifty. Lieut. Jump and five men were killed, and two wounded. The Indians succeeded in stealing the cattle of the train. The whites made a corral of wagon boxes and ox yokes, behind which breastworks they took position and fought the savages for three hours, killing and wounding many. The fight continued three hours with unabated vigor, until Major Smith came up with two companies of soldiers and two howitzers, from Fort Phil. Kearney, to their rescue. On the arrival of Major Smith, the Indians retreated, leaving five dead bodies on the field, going toward the northeast. Major Powell officially reports that the total loss of Indians was sixty killed and several wounded. The Indians were the Sioux and the Northern Cheyennes.

Indian alarms continue along the line of the Union Pacific Railroad. Day trains only are allowed to run on the road by Superintendent Snyder.

Superintendent Denman and General Augur united in saying that "Turkey-foot," Chief of the Cheyennes, is alone guilty of the late Plum-creek massacre, and is now camped ninety miles south of the Platte.

"Spotted Tail" is entirely free from imputations.

KEEP IT BEFORE THE PEOPLE.

Judge Sharswood and Legal Tenders.

Extract from his opinion in the case of Boire vs. Trott:

"On the whole, then, I am of opinion that the provision of the act of Congress of February 25, 1862, declaring the notes issued in pursuance of that act to be lawful money, *and a legal tender* IS UNCONSTITUTIONAL.

"This renders it unnecessary that I should consider the other question which has been made, as to the effect of the special agreement to pay in lawful silver money of the United States. I am in favor of entering judgment for the plaintiff, but as a majority of the Court are of a different opinion, judgment for the defendant." Copied from the Philadelphia *Age*, of the 22d of February, 1864, where the opinion is published in full.

It may also be found in the *Legal Intelligencer* of March 18, 1864, page 92.

In the same copy of the *Age* is a carefully prepared eulogy of the Judge and his opinion, in which is the following:

"Judge Sharswood reasons upon and decides the case as if he were some lofty spirit sitting far above and out of the contentions and strife of the world."

Will not the holders of greenbacks and Government bonds consider the Judge as quite too elevated and ethereal for such earthly honors as a set on the Supreme Bench?

Meeting of Soldiers and Sailors--Action of the President Condemned.

PHILADELPHIA, August 17.—A meeting of soldiers and sailors was held here this evening, in front of the Union League House, to condemn the President in removing Secretary Stanton. It was largely attended, and much enthusiasm manifested. Speeches were made by prominent officers, and resolutions adopted condemning the action of the President, heartily indorsing the official action of Mr. Stanton, and expressing the hope that the President will pause before interfering with Gen. Sheridan and other department commanders.

Another Monster--Seven Little Orphan Girls Outraged by the Superintendent of the Asylum.

ROCHESTER, N. Y., August 12.—Rev. H. Wendel, who for two years has been Superintendent of an orphan asylum at Philadelphia, was arrested here yesterday for perpetrating a rape on seven little girls under his charge. Wendel is a regularly ordained Southern clergyman. He confesses he has done wrong, and was taken to Philadelphia last evening.

THE CLINTON DEMOCRAT, an outspoken Copperhead organ which advocates the election of Judge Sharswood, because he boldly essayed to cripple the power of the Government by attacking its credit, describes Admiral Semmes, the rebel pirate, as winning honorable fame in an honorable cause! Semmes, in the name of treason, committed more piracies of greater atrocity than were ever laid to the charge of Captain Kidd. Semmes despoiled the merchant marine of the North to the amount of millions—he insulted and trampled on the flag of the Government, and engaged with our ancient enemies for our defeat. For doing all this a Democratic newspaper published in the State of Pennsylvania, vociferates that Semmes won *honorable fame in an honorable cause!* Certainly this is reaching the remotest point of Copperhead audacity in approval of treason.—*Telegraph.*

KENTUCKY is the only Saint's rest. Jesse D. Bright, the expelled Indiana Senator, has moved to Kentucky and been elected a member of the Legislature. Tools that Indiana throws away are good enough for the work done by the men who won the recent political victory in Kentucky.

PITTSBURGH, PENN'A. August 19, 1867.

MR. EDITOR—*Dear Sir*:—There will be an adjourned meeting of the friends of the M. V. R. R., *via* Saw Mill Run at Monongahela City, August 24th, at which it is desired to have the co-operation of the friends of the road above this point. We would be glad to have your district represented by a large delegation of influential citizens and capitalists favorable to the enterprise. The survey of our route will have been completed that far, and from the report of the Engineer it will be much shorter and cheaper than that by the river; two considerations of great importance in this matter.

Our prospects of commanding the attention and influence of capitalists and corporations to assist in the construction of the road is very encouraging.

Quite an enthusiasm prevails along this end of the road and if the upper end of the road can enlist as much, the prospects will be greatly enhanced. Respectfully, &c.,

L. OLDSHUE,
Ch'm. of Com. on Survey and Sub's *via* S. M. R.

MONONGAHELA VALLEY RAILROAD.—Agreeably to appointment, a meeting of the friends of this improvement was held at Library, August 10. Addresses were made by Dr. J. B Stilley, civil engineer, Hon. T. J. Bigham, Hon. J. K. Moorehead, Major Russell Errett, Hon. G. V. Lawrence, and others, all favorable to the construction of the road. The friends of this undertaking appear to be thoroughly in earnest, and no doubt the road, sooner or later will be buil't.

On motion of J. A. Happer, Esq., a meeting was appointed for Monongahela City, on Saturday the 24th inst.

DISTRICT COURT.—We note the following proceedings of the District Court sitting in Pittsburgh.

The Grand Jury returned true bills against the following named parties:

David McCracken, Greene county, for distilling without notice to the Assessor, and neglecting to pay the revenue duty.

John Fennigan, Greene county, setting up a distillery without giving notice to the Assessor, and making whisky and neglecting to pay the revenue duty.

David McCracken, Greene county, carrying on business as a distiller and not giving bond, and not providing a bonded warehouse.

Geo. Roach, Greene county, setting up a distillery and not giving notice to the Collector, and making whisky and not paying the tax.

SUICIDE.—Thos. Scisler, of George township, attempted suicide on Thursday morning, the 8th inst., by making an incision in his throat with a pocket-knife. Mr. Scisler was comfortable in worldly affairs, being the owner of a good farm. For some time he had been dispirited and melancholy, and, it is said, had been troubled in conscience because he sold his corn to a distiller.—*Gazette.*

LOAFING PROPERLY RIDICULED AND REBUKED.—Our friend Moore of the Washington *Reporter* being anxious to protect the workmen who are building the new jail in that place, from a gang of loafers who infest the premises, lets off in the following strain:

WANTED.—The Commissioners desire to procure the services of twenty or thirty boys, and ten or a dozen full grown men to oversee the building of the new jail. The boys must be of healthy organization, fully able to smoke and swear, and not given to obey orders, as it is highly important the workmen should be taught their places If any accident happens to the young gentlemen in the prosecution of their work, any Justice of the Peace will give their parents law, but the workmen will be specially instructed not to interfere with the boys.

The men must be sound in mind and limb, able to stand in the sun and protect the laborers from the heat (N B Workmen don't need fresh air.) They will be required to come on the ground at 7 a. m., and remain all day, with reasonable intervals for refreshments. They must be competent to ask questions, give instructions to the mechanics and make learned comments on the work as it progresses. Seats on the edge of the mortar-bed or any of the piles of refuse stone, will be furnished free of charge.

Idle men need not apply as the Commissioners desire the services of those only who are industrious, and whose attention can be riveted to the work, the rivets being furnished gratis. This being a great public work all good citizens who feel themselves competent to oversee it, will of course be willing to give their services without compensation. These public positions are now much sought after, and persons intending to apply should file their applications immediately.

POLITICAL AND MISCELLANY.

Change in District Commanders.

It is understood that the President has assigned Major General George H. Thomas to command the Fifth Military District, in place of Major General Sheridan, who has been assigned to command the Department of Missouri, from which Major General Hancock has been transferred to that of the Department of the Cumberland in place of General Thomas. It is expected that the order carrying these assignments into effect will be issued from the War Department, early this week.

GEN. GRANT has commenced in earnest the work of retrenchment. It is probable that at least two of the seven Adjutant Generals now in the War Department will be transferred to duty elsewhere. The Quartermaster's Department will also be largely reduced. There are now twenty-nine officers on duty in this branch of the Department, most of them in the regular army. The larger portion of these will be transferred; and the bureau reduced to something like its status before the war.

THE Copperhead Organs are jubilant over the fact that Gen. Grant, going into the War Department, accepts the "situation." All right. Let the Cops hold on to that stick, and we warrant they will get the palms of their dirty hands burned severely before a month has elapsed.

IT is reported that Ex-Governor Wm. Bigler is intriguing for a position in Andrew Johnson's Cabinet.

AUGUSTA, GA.

Jurors and the Test Oath---Patronage Withdrawn from Newspapers---Court Martial.

AUGUSTA, August 15.—The Atlanta *Opinion* thinks General Pope may shortly issue an order requiring jurors to take the test oath.

In accordance with General Pope's order the civil officials have notified the papers opposed to reconstruction, under the military bill, of the withdrawal of patronage from them. Of thirteen dailies in the State, only four indorse the Congressional programme.

Rebel Senator Hill to be Arrested.

General Grant, it is understood, will reply to General Pope's letter wherein complaint is made that ex-rebel Senator Hill, of Georgia, is making speeches against the reconstruction act, advising his arrest and all others who may be, in the opinion of the district commander, obstructing the working of the reconstruction act. General Grant some time since advised the arrest of Gen. Jenkins on precisely similar ground.

THE President cannot face public opinion by relieving General Sheridan for any of his official acts tending to successful reconstruction, but gives out that his removal will be based on no other reasons than insubordination and disrespect towards the Chief Executive. If Sheridan must suffer for an offense so common in the country as disrespect for the President, he will be consoled by knowing that he is in plenty of good company, so far as Mr. Johnson has forfeited the respect of all right minded citizens.—*Pitts. Gazette.*

THE President asseverates that he is constrained to remove Sheridan, not that he is altogether displeased with his official action in governing in his district, but because the great cavalry officer is disrespectful in his dispatches to his superiors. Andrew Johnson talk about any man being disrespectful either in language or action! Bah!

A YOUNG man named Stark, son of Rev. John Stark, of Kittanning township, was struck by lightning, on Wednesday evening, the 7th inst., and instantly killed. He had been cradling oats, and was on his way to the house, with the cradle thrown over his shoulder, when he was prostrated by the electric flash, which had evidently been attracted by the steel blade of the cradle.

TAKING CARE OF THEIR SONS.—President Johnson's son Robert is his chief Private Secretary. Secretary Seward's son is his principal assistant. Secretary Welles' son is chief clerk of the Navy Department.

WEST VIRGINIA COLLEGE.

This institution is now fully organized and ready to go into operation on the first Monday in September. We call attention to a few particulars in connection with it deserving the attention of students and the friends of education.

1. The design of the College is to promote the liberal and practical Education of the youth of our country in the several pursuits and professions of life.

2. The Buildings consist of first, the College, built originally by Col. Thomas P. Ray, a gentleman of taste and means; and subsequently much enlarged by the "Woodburn" association. The grounds include more than 20 acres, tastefully laid out; that part not in cultivation being ornamented with forest and fruit trees; beautiful shrubery, flowers, etc. Secondly, the Academy, a large and substantial building, conveniently arranged for study, recitation and lecture, and surrounded with ample grounds, shade trees, etc. Both of the above have been thoroughly renovated and made as good as new.

MORGANTOWN, the seat of the College, is unsurpassed for health, good order, and morality. The views and scenery, embracing mountain, river, forests, and farms are exceedingly attractive and picteresque. Coaches leaving every morning to and from Fairmont, on the Balto. & O. R. R. There is daily communication, by steamboat, between Pittsburgh and Geneva, 12 miles below Morgantown. A boat is being built to ply regularly on the upper Monongahela as often as the stage of water will permit, which is usually several months in the year. There is also conveyance, on alternate days, between Morgantown and Uniontown, Pa. A place more elegible for the quiet and successful pursuit of science and literature is no where to be found.

4. THE DEPARTMENTS OF Instruction are as follows, viz:

(1.) Preparatory, where young men and ladies are thoroughly drilled and taught in the common English branches and other studies required for entering the College classes proper.

(2.) Literary, embracing a Full Course in the ordinary curriculum of our best American Colleges.

(3.) Scientific, designed for those whose pursuits require thorough culture and discipline, and an extensive acquaintance with the sciences.

(4.) Agricultural, in which special attention will be given to the various branches of practical Agriculture, Horticulture, Rural Economy, and the Mechanic Arts.

(5.) Military Tactics.

(6.) Students preparing to Teach in our Common Schools will receive especial attention and assistance. It is designed to establish a Normal Class during one or more Terms in each year in which the ordinary school studies will be carefully reviewed, exactness and readiness in explanation and definition acquired, and instruction in the most approved methods of organizing and conducting schools imparted.

5. THE FACULTY OF THE COLLEGE is composed of the best Educators that could be found. All the Professors are experienced and practical men and earnestly devoted to the several departments of study assigned them.

THE COLLEGE YEAR consists of 39 weeks, divided into three Terms of thirteen weeks each. A short vacation of about one week intervenes between the first and second, and second and third Terms. Also a recess of one week at Christmas. The following is the Calendar for the College Year 1867-8: September 2, First Term begins. November 30, First Term ends. December 4, Second Term begins. December 25, Winter Recess of one week. March 19, 1868, Second Term ends. March 16, Third Term begins. June 17, Meet'ng of Board of Visitors. June 18, Third Term ends. Commencement.

THE RATES OF TUITION, per Term, are as follows, viz:

Primary Classes, payable in advance	$3.00
Preparatory	5.00
Collegiate	8.00

Students in the Preparatory Department pay one dollar, and in the College, two dollars, per Term, contingent fee. This is scarcely half what is charged, for the same purpose, by other schools of similar grade.

Good boarding, including every thing, except lights and washing, can be had, in the College, for $3.50 per week. Those in charge of this arrangement are entirely reliable. Some Teachers and their families, will also occupy the building.

9 THE LIBRARY is about to receive a small but choice selection of valuable works in Science, Literature and Art. Such apparatus as the means and demands of the College admit and require will be procured. We earnestly request our numerous friends to make contributions to our Library shelves. Also to collect and forward to us specimens for the Geological Cabinet, the Museums of Minerals, Natural History, etc. Such contributions will be thankfully received, carfully preserved, and the date of reception, locality whence procured, and name of donor permanently attached.

THERE are two Literary Societies in connection with the College, furnished with suitable Halls, and whose several exercises are, in many respects, of great advantage to the student. The authorities of the College will afford every facility for increasing the accommodations and usefulness of these valuable auxiliaries.

CIRCULARS and further information can be had by addressing the President of the College or any one of the undersigned.

NEW ADVERTISEMENTS.—The attention of our readers is specially directed to the following advertisements, which appear for the first time in our paper to-day.

Prothonotary's Notice.

Special Notice.—The Herbalist.

Mishler's Herb Bitters for Dyspepsia, at G. W. Roberts & Co's. Drug Store.

THAT "JIG."—A fancy jig was danced in front of the Court House the other day, to the evident satisfaction of a select few of the public square loafers and "Court House Officials." The performer was a drunk man who made his own music. The dancing was interspersed with several very affectionate "hugs," which, do doubt, were duly appreciated if not reciprocated!

A splendid assortment of Perfumery and Toilet Soaps at G. W. Roberts & Co's.

PROLIFIC.—We noticed last week that on a single vine in McCurdy's garden 178 tomatoes were counted. Since then forty more have been developed. Though this report is an actual fact, it is too big a thing to expect every body to believe!

Barrett's Hair Restorative, for sale at G. W. Roberts & Co's. Drug Store.

NOT SO.—It has been reported that the "Camp Ground" Coal Works had "played out." Our energetic friend "Bob" says he has an abundance of Coal ready, and advises his customers that now is the time to procure their winter's supply, whilst the roads are good and coal is cheap.

NEWTOWN LOTTERY.—The drawing of this famous scheme took place in Newtown on Thursday last. We have not been able to learn much about the results, except that there were many people there, that the Newtown boys were very lucky, and that there was much tangle-foot punished, and consequently some bloody noses.

Paints, dry and in oil, at G. W. Roberts & Co's. Drug Store.

AUCTION AT OAK FOREST!—The entire stock of goods of the late firm of Call, Roberts & Co., will be sold at auction, commencing on Thursday, August 22, 1867, and continuing from day to day until the entire stock is disposed of. Terms made known on day of sale. All persons knowing themselves indebted to the above firm will please call and settle their accounts at once. JOHN CALL,

Thompson's Tooth Soap, the best preparation for cleansing the teeth, at G. W. Roberts & Co's. Drug Store.

THE MONONGAHELA SLACKWATER.—The Monongahela City *Republican*, of Thursday, speaking of the repairs being made on the Monongahela slackwater, says: "Repairs have so far advanced at Lock No. 4 as to admit the passage of craft, but the water is too low to afford facilities for any but the very lightest flats. Moreover, repairs are about being commenced at Lock No. 3, and the water will be drawn from pool No. 2. There is but little indication of the resumption of navigation before the middle of September. In the meantime a light draft tug is making semi-weekly trips.

For the best vinegar go to G. W. Roberts & Co's. Drug Store.

IN THE MIDDLE OF THEM.—The delectable it not delicious dog days in whose sun sphere we are now revolving—embrace the time intervening between the 19th of July and the 28th of August. They are so called because the great dog star in the heavens was observed by the ancients to rise and set with the sun during that time.

THE *Press*, a new Republican organ, has made its appearance in Butler, Pa. It is edited by Mr. William Haslett, and the first copy presents quite a handsome appearance.

For the best Paint Brushes go to G. W. Roberts & Co's Drug Store.

REV. W. B. WATKINS, A. M., pastor of the Methodist Episcopal Church in Washington, Pa., has been invited to deliver the annual address before the Phito & Union Literary Societies of Waynesburg College, September 10th, 1867. Mr. Watkins is one of the most popular lecturers in the denomination.

THE Pittsburgh Annual Conference of the Methodist Church will meet in Uniontown, Fayette county, on Wednesday, September 4.

COAL! COAL!!—Always on hand at the Ten Mile Coal Works—nearest works of all to town—along new pike. SAYERS BROS.

FATAL ACCIDENT AT LOCK NO. 4—TWO MEN KILLED.—A distressing accident occurred at Lock No. 4, on the Monongahela river, a short distance above Monongahela City, on Saturday last, resulting in the injury of three men, two of whom have since died. It appears that some workmen were engaged in cementing the Lock, and had erected a temporary floor near the top of it, to work on. The floor was covered with a large quantity of sand and cement. When the terrific rain storm came up, on Saturday, the workmen, to avoid the rain, went under the covering of the floor. They had been under it but a short time when the flooring, from the heavy weight caused by the rain mixing with the sand, gave way, and fell upon them. One of them, an old man named John Wilcox, had his back badly injured, his shoulder blade broken, his neck and head badly hurt, and he was otherwise so seriously injured that he has since died. A man named Henry Molch had the spinal marrow broken about the middle of the spine, and died from the effects of his injuries yesterday. He was an unmarried man, about thirty years of age, and had but lately arrived in this country from Germany. Another man, a German named Godfrey Rothel, had his back crushed, causing him intense pain, although he is not dangerously injured. There were others under the covering, but they escaped unhurt.—*Pitt. Com.*

All the best Patent Medicines sold at Braden's Drug Store.

CHEAP LIVING.—Roasting ears at ten cents per dozen. They are just as good, however, as though they cost a quarter.

THE Blackberry season is again over, and many of our farmers are preparing their ground for the next year's crop! It is a paying business!

THERE will be a Grove Meeting at Davistown, this county, commencing August 22nd, to hold over Sunday, under management of Rev. M. M. Eaton, assisted by Rev. George Orbin, Rev. S Hull and other ministers. Rev. S. Wakefield, D. D., is expected on Sabbath.

"DYED IN THE WOOL."—The perfect stagnation in the wool trade has collapsed, and wool men are on the *qui vive* again, many to sell and a few to buy. Though the trade has revived, prices are not buoyant. But, paradoxical as it may seem, men that once refused 56 cts. per lb. now manifest a readiness to accept 50. We are pleased to see our people accommodate themselves to the "reconstructed" markets with such good grace.

Flavoring Extracts, the very best, at Braden's Drug Store.

"S. H."—We see these mystic letters chalked on one of the chimneys of the court house. As the Commissioners have just completed painting the out side of the structure, a job, by the way, commenced some years ago, we interpret these letters to indicate "Some House!"

A fine assortment of Perfumery at Braden's Drug Store.

HOG CHOLERA.—We read of the renewed ravages of the hog cholera in certain localities. If it were *dog cholera* we would invite its visitation.

DOGS AND HOGS, CATS AND RATS.—Nearly every family in Waynesburg has a sow and shoats running loose on the streets, and a cur and a phist to keep them out doors. Ditto rats and cats to say nothing of fleas. We do enjoy a happy existence!

Hall's Hair Renewer, for sale at Braden's Drug Store.

DEDICATION OF THE BATES' FORK BAPTIST CHURCH.—This new Baptist Church, which has been erected on the farm of Thomas W. Taylor, Esq., in Washington township, Greene county, Pa., was dedicated to the worship of Almighty God, on Thursday, August 15, '67.

Ministers present: Revs. A. J. Collins, S. Kendall, J. Rossel, C. Tilton, H. K. Craig, H. Stewart, J. S. Yoders and M. Tilton. Chairman, M. Tilton; Secretary, C. Tilton.

The following is a short synopsis of the exercises:

1. Reading the Scripture. 1st Kings, 8th chapter, by Rev. C. Tilton.
2. Singing.
3. Introductory prayer, by Rev. H. K Craig
4. Dedication sermon. Ps. 81 chapter, 10th verse, by Rev. A. J. Collins.
5. Dedication prayer, by Rev. S. Kendall.
6. Benediction, by Rev. J. Rossel.

SOLDIERS' MONUMENT.—Can not some scheme be devised by which Greene county can do her gallant soldiers the honor of erecting a monument to their memory? If there be not patriotism, gratitude and enterprise enough in the male portion of our citizens to make the matter even a subject of serious consideration, we suggest that *the ladies take it in hand*. It is a crying shame that we do not pay this noble self-sacrificing band this poor tribute of respect.

Fayette county is raising means to affect the same object by contributing to a Lottery Scheme which we regard as a somewhat doubtful method, both as to sound morals and disinterested patriotism. Let a County Meeting be called and an active committee appointed for each township to solicit subscriptions and the means will be forthcoming. Our people are neither too ungrateful nor too parsimonious. All that is necessary is to put the enterprise in practical shape, and it will be an accomplished fact.

SMALL-POX.—Though there have been a few cases—a half dozen at most—of small pox of a mild form in Waynesburg, there has certainly been no ground for the fabulous stories so prevalent in the country. Some waggish persons have slily circulated imaginary reports which with singular credulity have been believed. In one instance it was currently reported that there were sixty cases here. In a family of only six persons, *eleven* were said to be down with the disease. In another instance it was reported that a certain man's children had all died with the disorder, when, as the fact is, he never had any children. Also, it is said two or three of our *old bachelors' wives* died with it, and so on. The truth is, we have had but one death, that of a colored man, who, it is now ascertained, had not proper attention. The other cases have all recovered, or are convalescent. No new cases have yet developed themselves, and it is now hoped its spread will be prevented, as our citizens are taking the precaution to have their families all vaccinated which is considered a sure preventive.

"STILL THEY COME!"—Notwithstanding the river has dried up and that communication is cut off, EVANS is still receiving supplies of fresh Dry Goods and Groceries, and is selling them at killing cheap rates. He has just opened a choice stock.

OUR JAIL is without a tenant. Either our people are very good or the jail very bad. The latter, we think.

SHAW, supposed to be the principal actor in the Cookstown murder, returned home last week and was committed for trial.

"BLESSED BE THE MAN WHO FIRST INVENTED SLEEP," quoth Sancho Panza. Sleep has often been "murdered," not in Macbeth's case only, but in many modern instances, by Indigestion, Nervous Disorders, Headache and a host of other complaints. For all such there is a remedy, and sufferers may now exclaim, "Blessed be the man who invented the PLANTATION BITTERS!" This delicious Cordial and fine Tonic is now hailed by millions as the great Health Giver and Restorer. Resolve to buy a bottle, and don't "sleep on it." "Be wise in time." 2t.

MAGNOLIA WATER.—A delightful toilet article—superior to Cologne and at half the price.

WISDOM.—Since the brutal murder of John Evans, the peace and order loving citizens of Cookstown have held a public meeting to devise measures to prevent the repetition of such crimes in their midst. Among other things suggested they recommended the Town Council to petition the Court to revoke all licenses to sell ardent spirits in the place.

SAD ACCIDENT.—Mr. Robert Ferguson, a young man twenty-one years of age, a resident of Steubenville, was instantly killed on Tuesday afternoon, August 6th, near Bowerstown, by the upsetting of a peddling wagon.—*Wash. Reporter.*

At an election of the "Vigilant" Lodge of Independent Good Templars, for the quarter commencing August 1, 1867, the following named officers were elected:

W. C. T., Jos Yeater; W. V. T., Mrs. Stanton; W. S., W. E Parkinson; W. T., Mrs. Jones; W. I. G., Miss Stone; W. O. G, J. Bealer.

The following subordinate officers were appointed:

W. C., Jas. Best; W. A. S., Capt. L. Grim; W. F. S, Jas. N. Miller; W. M, Jno. A. Lindsey; W. D. M., Miss Downey; W. R. H. S., Miss Lizzie Widney; W. L. H. S., Mrs. Kate Rogers.

The Lodge is said to be in a flourishing condition and is doing good service in the Temperance Reform.

BOAT TO MORGANTOWN.—We understand the "Old Line" folks are building a beautiful little passenger and freight Boat, drawing but a few inches of water, to ply between Geneva and Morgantown, and that she will be ready for business in a few weeks. She will connect with the present boats to Geneva, and we are authorized to say, that when the water is too low for the large Boats, she will run clear through to Pittsburgh, or to where the water is sufficient to float the large Boats.—*Monongahela Republican.*

Died.

NOTICES of Marriages and Deaths inserted free; but all Tributes of Respect and Obituaries charged eight cents a line. The money must be advanced to secure their insertion.

HARN—At his residence in Greensboro, on Tuesday, August 18th inst., Mr. J. W. Harn, aged about 50 years.

MOREDOCK—At his residence in Greene township, this county, on the 31st day of July last, Mr. John Moredock, aged 91 years, nine months and seventeen days.

The deceased was among the oldest and most esteemed citizens of the county.

THE WONDER OF THE AGE!

TIME, MONEY AND LABOR SAVED!

THE LATEST & BEST CHURN!

One of the latest Patents, issued on the 11th day of September, 1866, to Wm. R. McCutcheon, of Washington, Iowa, will be on exhibition in a few days at

JOHN MUNNELL'S,

in Waynesburg, Pa. This CHURN must supercede anything of the kind heretofore produced. The simpleness of its construction, and its two-fold or reversed motion, that produces butter from three to six minutes must induce the community to examine its qualities. It saves time—it saves work—and produces as much butter as any churn in existence. Mr. Munnell has full power to sell rights for Pennsylvania or New York State as well as to furnish Churns to citizens of this county.

FOUTZ'S
CELEBRATED
Horse and Cattle Powders.

This preparation, long and favorably known, will thoroughly reinvigorate broken-down and low-spirited horses, by strengthening and cleansing the stomach and intestines.

It is a sure preventive of all diseases incident to this animal, such as LUNG FEVER, GLANDERS, YELLOW WATER, HEAVES, COUGHS, DISTEMPER, FEVERS, FOUNDER LOSS OF APPETITE AND VITAL ENERGY, &c. Its use improves the wind, increases the appetite, gives a smooth and glossy skin—and transforms the miserable skeleton into a fine-looking and spirited horse.

To keepers of Cows this preparation is invaluable. It increases the quantity and improves the quality of the milk. It has been proven by actual experiment to increase the quantity of milk and cream twenty per cent and make the butter firm and sweet. In fattening cattle, it gives them an appetite, loosens their hide, and makes them thrive much faster.

In all diseases of Swine, such as Coughs, Ulcers in the Lungs, Liver, &c., this article acts as a specific. By putting from one-half a paper to a paper in a barrel of swill the above diseases will be eradicated or entirely prevented. If given in time, a certain preventive and cure for the Hog Cholera.

Price 25 Cents per Paper, or 5 Papers for $1.

FIGHTING EDITORS.

The position of an editor in Vicksburg was formerly more perilous than that of a soldier in active service. That was then "the code" universally accepted as the standard. The Vicksburn *Republican* gives an interesting chronolgical table of the casualities of the various editors of the *Sentinel*, of that city before the war. It says:

"Dr. Hagan took charge in 1837: fought a duel with the editor of the *Whig*; participtated in a number of free fights, and was finally killed in 1849 in a street fight by W. D. Adams. His assistant, Isaac Partridge, died with yellow fever in 1849. Dr. J. S. Hall, associated with Mr. Partridge, was a noted duelist, and had a number of 'affairs,' in one of which he was severely wounded. The next unlucky editor was James Ryan, who, in vindicating his honor, was killed by R. E. Hamit, of the *Whig*. From the report of the fight, it would seem that the *Whig* man got the best of it. Next in the list came Walter Kickey, who indulged in several street rows, and was repeatedly wounded; he killed Dr. Kacklin, and was soon after killed himself in the Lone Star State.

"The next editor was John Lavins, who, it seems, declined glory on the field of honor, and consequently is not entitled to a place in the niche of fame, He indulged, however, in the usual amount of Southern indiscreet abuse, and atoned for his folly by serving a time in prison. Mr Jenkins, his successor, in aspiring to immortality, came to an untimely end in a street fight with A. H. Crabbe; Mr. Crabbe was assassinated in the same manner in Sonora. Mr. F. C. Jones succeeded Jenkins, but not finding the editorial chair an easy one, he did the most sensible thing an editor could do, and drowned his sorrows and body at the same time in the Father of Waters. William Roy, Esq., subsequently assumed editorial charge of the *Sentinel*, and soon after he celebrated the event with a street fight. This exercise was repeated at intervals until finally he was assassinated in a street row by his bookkeeper. The book-keeper died a natural death about two years since."

THE *Jackson Democrat*, Mississippi, publishes, in the biggest type its limited printing office can supply, this alarming decree: "The Negroes must "be Deported or EXTERMINA-"TED! All the devil-begotten imps "of darkness, whether black or brown, "whether NEGROES or Indians, "whether Mongols or mulattos, *should "at once be dismissed, and that forever*, "FROM THE CARE, FROM THE "SIGHT, AND EVEN FROM THE "THOUGHTS OF THE HEAVEN-"BORN WHITES." Without the aid of the negroes the editor of the *Democrat* would probably be begging his bread, and we are quite sure that if he executes his dire and dreadful threat, he will find that he has deported and exterminated his dinner.—*Tribune.*

WHEN Lord Sidmouth one day said: "My brains are gone to the dogs this morning," friend at once ejeculated, "Poor dog."

INSULT TO MINISTER MORRIS.—Paris, August 10. The Turkish Admiral recently forcibly took a dispatch from a servant of the United States Minister resident at Constantinople, Edward Jay Morris. It is reported that Mr. Morris has since laid the case before the Turkish Government and demanded redress for the outrage. The reply of the Sublime Porte has not transpired.

DR. SCHENCK'S

PULMONIC SYRUP.

This great med icine cured Dr. J. H. Schenck, the Proprietor, of Pulmonary Consumption, when it had assumed its most formidable aspect, and when speedy death appeared to be inevitable. His physician pronounced his case incurable when he commenced the use of this simple but powerful remedy. His health was restored in a very short time, and no return of the disease has been apprehended, for all the symptoms quickly disappeared, and his present weight is more than two hundred pounds.

Since his recovery, he has devoted his attention exclusively to the cure of Consumption and the diseases which are usually complicated with it, and the cures effected by his medicine have been very numerous and truly wonderful. Dr. Schenck makes professional visits to several of the larger cities weekly, where he has a large concourse of patients, and it is truly astonishing to see poor consumptives (so hurried be their journey) brought out of their carriages, and in a few weeks healthy, robust persons. Dr. SCHENCK'S PULMONIC SYRUP, SEAWEED TONIC and MANDRAKE PILLS are generally required in curing Consumption. Full directions accompany each, so that any one can take them without seeing Dr. Schenck, but when it is convenient it is best to see him. He gives advice free, but for a thorough examination with the Respirometer he charges five dollars.

Please observe, when purchasing, that the two principal symptoms the Doctor—the whites in the last stage of Consumption, and the other as he now is, in perfect health—are on the Government stamp.

Good for all Bronchial and Throat Diseases. Price $1.50 per bottle, or $7.50 the half dozen. Letters for advice should always be directed to Dr. Schenck's Principal Office, No. 15 North 6th St., Philadelphia, Pa.

FELLOWS'

WORM LOZENGES!

Are, without exception, the most extraordinary Medicine of the age. Comprising as they do, Remarkable Power in expelling worms, with pleasant taste and perfect safety. They contain no Mercury, no Mineral, no Turpentine, no Oil of Wormseed, no Poison, nothing injurious. They are entirely Vegetable.

SYMPTOMS OF WORMS.—Itching of the nose, feverishness, twitching or starting suddenly during sleep, pain in the stomach, loss of flesh, paleness with hectic appetite sometimes voracious, at others feeble, a dullness of the eyes, drowsiness, a swelled upper lip, tongue whitely furred and studded with red spots, fetid gastric breath, grinding of the teeth during sleep, a sensation of lodgment in the throat, an unnatural craving for diet, chalk or clay, restlessness and irritability of temper, cholic fits and palsy. Intestinal Worms are among the first to undermine the constitution in the list of diseases. They often occasion severe disease, ending sometimes fatally, particularly when they ascend to the stomach. Their presence in their most ordinary situation is attended with unfavorable effects upon the general health. Eminent men assert that all are more or less troubled with worms, and that many die annually from this cause, who, by the timely administration of a proper remedy would be saved. As FELLOWS' WORM LOZENGES may be taken without any unpleasant results, and as most children are fond of them, their use is recommended to those apparently healthy, and thus dispel the cause of what would produce suffering.

Be careful what you use. Various remedies have from time to time, been recommended, such as Calomel, Oil of Wormwood, Turpentine, &c., so that dangerous and even fatal consequences are produced. The necessity of a safe and sure remedy has caused much research and study by the proprietors of FELLOWS' WORM LOZENGES. They are positively safe, pleasant and effectual. They do not kill worms, but act by making their dwelling place disagreeable to them. In order, however, to guard consumers against deception by a base compound, the analysis of Dr. A. A. HAYES, State Assayer, proving the above statement is annexed.

"I have analyzed the WORM LOZENGES prepared by Messrs. FELLOWS & Co., and find that they are free from Mercury and other metallic or mineral matter. These Lozenges are skilfully compounded, pleasant to taste, safe, yet sure and effectual in their action."

Respectfully, A. A. HAYES, M. D.,
Assayer of the State of Mass.

Please remember that Fellows' Worm Lozenges are prepared with great care from the concentrated extracts of two plants. They do not act as a purgative or emetic, will not debilitate the patient, are so simple an infant may devour a whole box without harm, and will at the same time expel the worms in an extraordinary manner.

☞Fellows' worm Lozenges is the only Worm Remedy in existence combining harmless qualities with delicious taste and amazing power.—Price Twenty-five cents per Box. Five boxes for a dollar. The signature of Fellows & Co. is attached to each genuine box. Sold by Medicine dealers generally. Prepared at the New England Botanic Depot, for the Proprietor,

AN INVALUABLE MEDICINE FOR THE PURIFYING OF THE BLOOD.

DR. J. W. POLAND'S

HUMOR DOCTOR.

A Positive Remedy for all kinds of Humors, particularly Erysipelas, Nettle Rash, Salt Rheum, Scrofula, Carbuncles, Boils and Piles. It is very gratifying to say of this, or of any other medicine, "It is the very best remedy known." It is not always so easy to prove it. It is, however, exceedingly gratifying to the proprietor of this medicine, that, while he declares to the public that this is a most wonderful and effective specific for Humors, as stated above, he has abundant proof at hand to sustain his statement.

For sixteen years the Humor Doctor has been manufactured and sold, and every year has increased the value of its reputation, and the amount of its sales. In New Hampshire, where it originated, notoriously for humors is so highly prized. An eminent physician (now an army surgeon) when practicing in New Hampshire, purchased between fifty or sixty gallons of it, during some seven or eight years, and used it in his practice. He has since then ordered it for the hospital where he was stationed. Other physicians have purchased it, and have used it in practice with great success. When the proprietor lived in New Hampshire, at Goffstown Center, for the space of thirty or forty miles around, and in Manchester, particularly, the Humor Doctor was well known and highly valued for the numerous and wonderful cures which it effected. Though manufactured in large quantities the supply was frequently exhausted, and purchasers had to wait for more to be made. In that region some very severe cases of Erysipelas were treated with—and they were cured! Erysipelas, sores, or carbuncles, those ugly, painful ulcers, were entirely removed wherever this medicine was faithfully used. So it was with Scrofula and Salt Rheum. The Humor Doctor cured them.

For the sake of showing what is thought of it, a few testimonials are here inserted:

MILTON GALE, Esq., BOSTON.

I hereby certify that I was sorely afflicted with Boils for two years, developing themselves upon my limbs and other parts of my body. The sufferings which I endured from them are indescribable. Suffice it to say that I faithfully tried several of the most popular humor remedies, but without removing the affliction. At length, by the earnest request of an intimate friend, I was induced to try Dr. J. W. Poland's Humor Doctor, and am very happy to attest that all my Boils were removed, and my health was restored by using Dr. J. W. Poland's aforesaid medicine.
Boston, Jan. 14, 1866. MILTON GALE.

A. C. WALLACE, Esq., MANCHESTER, N. H.

Dr. J. W. Poland—Dear Sir: I very cheerfully give my testimony in favor of your Humor Doctor as an excellent remedy for humors. My numerous acquaintances in Manchester know how severely I was afflicted with Boils and they know how perfectly good my health is at present. Your Humor Doctor cured me. Please refer to me for particulars in my case.
June 11, 1866. A. C. WALLACE.

MRS. PORTR, Dov r, N. H.
July 22, 1865.

DR. POLAND: I received your letter inquiring as to the effects of your medicine on sea-sickness. I am happy to say that I think it is "the medicine" for that dreadful sickness. I tried various prescriptions, but found none that settled the stomach and cleared the head like the Humor Doctor. I felt as though I could hardly wait to get ashore, to entreat you to introduce it into ship chandlery stores, that it may find its way to those who suffer upon the mighty deep from sea-sickness. If captains who take their families with them, or carry passengers, should try it once, they would never be willing to voyage without it.

I have used it for my family since its introduction to the public for bilious habits, headache and humors about my children, and have always found it a sure cure.

I am not fond of having my name appear in public, and would not consent to it on any other account but to relieve the suffering; but if the foregoing will be of any service to you or the public, you can make use of it.

Yours, HARRIET M. PORTER.

Much more might be stated in relation to this medicine, as contained in testimonials, but it is needless. Ask Manchester druggists, about it, especially E. W. Blake, at Barr's. Inquire of Mr. Henry Plumer, of Bedford, whose wife was cured by it of Salt Rheum. Ask almost any person in Goffstown, and they well declare its value as a remedy, as used in their own cases or by their friends.

The Humor Doctor was formerly sold at fifty cents per bottle; but the cost of every ingredient composing it has gone up so enormously, that the price has been raised to SEVENTY-FIVE CENTS ONLY, and that by compulsion.

The Humor Doctor is prepared at the New England Botanic Depot, for the Proprietor, J. C. French.

Sold by Medicine Dealers everywhere.

J. W. BRADLEY'S CELEBRATED PATENT

DUPLEX ELIPTIC

(OR DOUBLE SPRING)

SKIRT.

The Wonderful Flexibility and great comfort and pleasure to any lady wearing the Duplex Elliptic Skirt will be experienced particularly in all crowded assemblies, operas, carriages, railroad cars, church pews, arm chairs, for promenade and house dress, as the skirt can be folded when in use to occupy a small place as easily and conveniently as a Silk or Muslin Dress, an invaluable quality in crinoline, not found in any single spring Skirt.

A lady having enjoyed the pleasure, comfort and great convenience of wearing the Duplex Elliptic steel Spring Skirt for a single day, will never afterwards willingly dispense with their use. For Children, Misses and Young Ladies they are superior to all others.

They will not bend or break like the single spring, but will preserve their perfect and graceful shape when three or four ordinary skirts will have been thrown aside as useless. The hoops are covered with double and twisted thread, and the bottom rods are not only double springs, but twice (or double) covered; preventing them from wearing out when dragging down stoops, stairs, &c.

The Duplex Elliptic is a great favorite with all ladies and is universally recommended by the Fashion Magazine as the standard skirt of the fashionable world.

To enjoy the following inestimable advantages in Crinoline, viz: superior quality, perfect manufacture, stylish shape and finish, flexibility, durability, comfort and economy, enquire for J. W. BRADLEY'S Duplex Elliptic, or Double Spring Skirt, and are sure you get the genuine article.

CAUTION.—to guard against imposition be particular to NOTICE that skirts offered as "DUPLEX" have the red ink stamp, viz; "J. W. Bradley's Duplex Elliptic Steel Springs." Also Notice that every Hoop will admit a pin being passed through the centre, thus revealing the two (or double) springs braided together therein, which is the secret of their flexibility and strength and a combination not to be found in any other skirt.

For sale in all stores where first class skirts are sold throughout the United States and elsewhere.
